

High School Programs

New Education for the Workplace (NEWCorp) provides services for seven SIATech® high schools in Arizona, New Mexico, and Florida.

Services range from human resource development to operational management to curriculum licensing.

SIATech (School for Integrated Academics and Technologies) is an award-winning dropout recovery program which operates in partnership with Job Corps.

Since its establishment in 1998, the program has helped more than 7,500 former high school dropouts earn their high school diploma.

SIATech High School Program

New Education for the Workplace (NEWCorp) provides services for seven SIATech® high schools in Arizona, New Mexico, and Florida. Services range from human resource development to operational management to curriculum licensing.

SIATech (School for Integrated Academics and Technologies) is an award-winning dropout recovery program which operates in partnership with Job Corps. Since its establishment in 1998, the program has helped more than 7,500 former high school dropouts earn their high school diploma. The school's mission is Real Learning for Real Life™; and emphasizes academic advancement as well as the holistic development of its students into contributing members of society.
